DINEO MALUMANE
Senior Project Developer

Dineo Malumane is a Senior Project Developer at Voltalia South Africa, with over 12 years of experience in renewable energy project development across South Africa and other African markets. Her expertise spans the full project lifecycle, from feasibility studies and project development through to financial close, procurement, construction, and operations of utility-scale renewable energy projects.

Throughout her career, Dineo has contributed to the development of more than 2.6 GW of solar PV projects and nearly 1.2 GW of wind projects. Her experience also includes developing renewable energy solutions for the mining sector and commercial and industrial (C&I) customers.

Dineo holds a BCom Honours degree in Economics and a National Diploma in Electrical Engineering. She is passionate about advancing sustainable energy solutions that support industrial growth, strengthen energy security, and accelerate the mining sector's transition to a lower-carbon future.
