

## **CAREL OOSTHUIZEN**

### **Senior Engineering Manager: Central Services, Harmony Gold Mining Company**

Carel Oosthuizen is a Senior Engineering Manager Central Services at Harmony Gold, bringing extensive experience in safety and operational leadership within the mining sector. His background demonstrates versatile expertise across various mining environments in South Africa.

Prior to his current role, Carel served as Senior Engineering Manager in the Gauteng and North West regions. During this time, amongst other, MPL systems were implemented at the operations. Further to that he led engineering teams to comply with the mine health and safety act and company strategies.

Building on experience in the mining sector, Carel held various Engineers positions in Harmony, such as Engineering Manager at Kusasaletu mine, focusing on safety and the availability of critical infrastructure. Senior and Project Engineer responsibilities at Doornkop shaft, implementing Loco Proximity detection systems.

Carel's career also includes roles at Evander gold mines, Avgold and Witkop Flourspar mine, overseeing engineering functions and demonstrating his capabilities in operational management.
