

LETISHA VAN DEN BERG

Director, ASPASA

National Examination Board in Occupational Safety and Health (NEBOSH)

Letisha is a strategic leader focused on strengthening safety, health, environmental and quality (SHEQ) performance across the surface mining sector. In her role as Director of ASPASA, she partners with industry and government to advance practical compliance solutions, standards and leading practices that support sustainable operations, particularly for smaller mines.

Her experience spans governance, risk management, auditing and ISO system implementation, underpinned by strong operational oversight and stakeholder engagement. Letisha also contributes sector leadership as an employer representative on the Mine Health and Safety Council (MHSC) board, the Institute of Quarrying South Africa (IQSA) President and Board member.
