CHAMBER OF MINES RESPONSE TO ECONOMIC FREEDOM FIGHTERS MEMORANDUM

Johannesburg, 26 November 2015: The Chamber of Mines has formally responded to the memorandum received from the Economic Freedom Fighters on 27 October 2015.

The Chamber's response, on behalf of all its members, welcomes the EFF's input on matters that affect not only the industry but South Africa as a whole. We acknowledge that the mining industry plays a key role in South Africa's economy and as such has a wider contribution to make.

Our doors are always open for direct and constructive engagement with the EFF's leadership on the issues they have raised.
